

AFP – Greater Milwaukee Chapter June 19, 2008

Presentation Goals

- Understand the merits of conducting the study in-house
- Understand if, when, and how to use outside counsel in the study
- Demystify the process; empower you
- Learn what is involved in conducting a study—whether in-house or outsourced

Why Do a Feasibility Study?

Likely Objectives

- 1. Test constituent reaction to plans and funding needs
- 2. Position and cultivate donors
- 3. Learn how much could be raised in the campaign
- 4. Identify prospective campaign leaders
- 5. Surface concerns or issues that could become barriers to the campaign
- 6. Determine whether or not to proceed with the plans for which the campaign will provide financial support.

Counsel Should Conduct the Study When:

- Development staff has limited or no experience with major gifts.
- Known sensitivities exist around institutional leadership issues, making confidential interviews preferable.
- Demands of fundraising and other pressing work do not permit staff to invest the time to conduct interviews.

Conduct the Study In-House When:

- Mature development staff with prospect portfolio management responsibilities are available.
- There is strong relationship continuity between development staff and prospective campaign donors.
- Prospective campaign donors are weary of "one more feasibility study," having participated in many, which begin to resemble one another.
- Prospective campaign donors signal some objection to "experts" from "outside" coming in for a short period and then leaving.

Top 10 Benefits of In-House

- Strengthens donor relationships with staff using targeted conversations.
- 2. Donors feel better knowing the conversations are about them first, rather than simply about their money.
- 3. Staff members gain experience asking sensitive questions about personal giving and interests.
- 4. Obtains valuable donor/prospect information that can be imported directly into the donor data management system without being filtered (or lost!) by the consultant.
- Achieves greater scheduling flexibility for completing interviews.

Top 10 Benefits of In-House

- 6. Fields multiple interviewers to gain multiple perspectives.
- 7. Staff members feel a greater sense of ownership of the information.
- 8. Increases staff credibility among internal constituents.
- Helps retain staff who achieve valuable career building experience.
- 10. Saves money in consulting fees, redeploying that savings into other budget needs.

Elements of the Study Process

- 1. Determine the study's objectives
- 2. Select the study team
- 3. Select those to be interviewed
- 4. Prepare interview guide & materials
- 5. Arrange the interviews
- 6. Conduct the interviews
- 7. Collect and analyze the findings
- 8. Prepare and present the report

Determine Objectives

Prepare the feasibility study plan

- 1. Rationale and objectives
- 2. Resource requirements
- 3. Analysis and reporting
- 4. Communications

Select the Study Team

Roles to be played by staff:

- Team leader
- Interviewers
- Logistics support and coordination
- Statistical analysis
- Content analysis and report writing

Select Those to Interview

- Determine selection criteria
- Consider interviewee types—individual, couples, corporate, foundation
- Set interview locations
- Decide number of interviews
- Determine the preferred inviter

Prepare Materials

Materials to prepare interviewers;

- Interviewee profiles
- Scheduling & tracking tools
- Interview guide & questions

Materials sent in advance of interviews:

- Case/briefing document (draft)
- Business card

Materials introduced during interviews:

- Scale of giving/gift table
- Organizational leaders list

Arrange the Interviews

- Telephone prospect to invite participation
- 4 scenarios:
 - Interviewer calls/existing relationship
 - Interviewer calls/cold call
 - Influencer calls/existing relationship
 - Influencer calls/cold call
- Confirmation letters
- Courtesy reminder calls the day before

Conduct the Interviews

- Setting
- Content
 - Introduction & general perceptions
 - Reaction to organization plans
 - Observations about campaign capacity
 - Interest/readiness for personal involvement
 - Advice on campaign strategy & leadership
- Conduct, language, demeanor
- Mind-dump immediately follows

Collect and Analyze Findings

Determine campaign goal and strategies

- Review qualitative findings
 - Content analysis of all notes
- Review quantitative findings
 - Master compilation worksheet
 - Goal determination worksheet
 - Scale of giving analysis

Master Compilation Worksheet

Key Variables in Goal Setting

- 1. Response/readiness of top 10
- 2. Were "the right" prospects interviewed?
- 3. Rated capacity of interviewees
- 4. Risk-aversion profile of your leaders
- 5. Environmental factors
- 6. Gravitational pull of plans/projects
- 7. Internal capacity for campaign
- 8. Organizational fundraising history

Prepare & Present the Report

- Full written report
 - Executive summary
 - Describe methodology
 - Study findings and observations
 - Recommendations
- Process report for acceptance and ownership

Discussion / Q & A

Gary Hubbell Consulting, LLC

We work with organizations on the cusp of doing great things – retooling business income and philanthropy strategies; engaging board members and community in unprecedented ways; raising more money than ever before.

Clients contact us seeking help to develop strategies that foster organizational agility, setting a plan in place around which commitment runs deep, and determining how to generate philanthropy and other resources to fuel the resource engine of the future.
